NUTTERS

EVERYDAY NATURALS

Whole Earth & Sea Our regenerative farms surge into *spring*

When we **rejuvenate the earth, the earth rejuvenates us.**
When we listen and work in harmony with nature, life thrives!

That's why for more than 30 years, we have been practising regenerative methods on over 1,000 acres of our certified organic farmland. These methods naturally revitalize the soil, promote ecological balance, and enhance the lives of all living organisms that are part of it.

From our bioenergetic farms, we harvest the most nutrient-dense components of our crops. Using our proprietary EnviroSimplex® process, we then create highly concentrated extracts, and stabilized plant minerals and enzymes.

Because of our commitment to these holistic restorative techniques, Factors Farms® meet the ABOV certified standard for better regenerative, bioprotective practices.

ABOV™ Verified
Agriculture Beyond Organic Verification

SCAN for further information on ABOV.

THE HORSES – Using our resources to buy horses

Our horses contribute to the preservation of our beautiful Earth by promoting bio-diversity, reducing carbon emissions, controlling weeds, and improving soil fertility.

THE FROGS – Ground control

Frogs are permanent residents on our farm, and to benefit them, we have dug several ponds along the length of the farm close to the creek.

During the spring, countless tiny black tadpoles undergo a transformation into small froglets. As the ground heats up, these froglets leave the pond nurseries, and literally cover the farm, maturing and serving as an invaluable part of our “pest control” team.

THE BIRDS – Air control

There are dozens of bird species nesting in and around our farms. The allocation of wild areas and corridors

around the creek assures safe nesting grounds for many bird species. As part of the living, diverse farm ecosystem, they also form a unique airborne pest control crew.

Among the unique and interesting bird species making our farms their home is the Cliff Swallow. This species nests in huge colonies on our farm, mainly under bridges, which provide safe and permanent nesting areas.

THE POLLINATORS

Our regenerative, bio-protective farming practices also encourage the healthy population of natural pollinators (butterflies, bees, beetles, bumblebees, flies, hummingbirds, and some others), whose powerful pollination activity leads to increased yields of cultivated crops and improved biodiversity of the wild species present.

Wonderful Whole Earth & Sea

We grow & work with our hands.
This is where our multivitamins start!

Why is such care given to our farms? Because we believe the earth is perfectly designed, full of biodiversity and regenerative power.

Our **love** of what makes the earth so beautiful is in the seed we start with. It takes **commitment** to responsible stewardship, sustainable farming practices, and the cultivation of the biodiversity around us. To do all that, we grow and work with our **hands**.

More than simply organic, our farms utilize extremely delicate growing methods that promote the greatest biodiversity with insects, birds, and even amphibians. Our farms are where we hand-fertilize each of our crops with compost and nitrogen-rich sea plants, and tend to our crops by hand.

All flyer products are ISURA verified

The ISURA seal is your assurance that the product is independently verified as clean and safe, and has been tested for over 800 possible contaminants. ISURA's rigorous testing includes hundreds of quality procedures using state-of-the-art technology. It provides you with the confidence that the product is ISURA verified clean, one of the highest testing standards in the world.

Preventable, not inevitable

Yes, you *can* prevent dementia and Alzheimer's!

Q: How big of a problem is Alzheimer's and dementia?

A: 43% of the world's population have disabilities to do with the brain and mental health. It's not

just a problem for elderly people. IQ is dropping about 7% each generation. The youngest age of a non-genetic Alzheimer's diagnosis is 19.

Q: Is Alzheimer's inevitable?

A: No! Alzheimer's is not a natural part of the aging process. Less than 1% is in the genes.

For 99% of us, Alzheimer's is preventable. Dementia is preventable.

Q: What can we do to prevent it?

A: You can basically dementia-proof yourself. We know how to prevent this disease, and it's related to what you eat and how you live.

Q: I'm in my mid-60s. Is it too late for me to change?

A: No, not at all! You are the architect of your brain's future health.

Prevention is the best for retention

Researcher Patrick Holford says these are the most evidence-based solutions to help prevent Alzheimer's and dementia:

- **OMEGA-3:** A lack of omega-3 predicts your risk for dementia. The more omega-3 you have, literally the more brain you have, and the better your cognitive abilities.
- **B VITAMINS:** The higher your homocysteine, the greater the rate of brain shrinkage. Homocysteine is only produced in the body if you lack B vitamins. These nutrients are required for a vital process called "methylation," which, among other things, is essential to build brain cells.

- **PHOSPHOLIPIDS:**

Phospholipids (including phosphatidylserine and phosphatidylcholine) are essential for the brain. They get attached to an omega-3 fat, for example DHA, to build brain-cell membranes.

- **REDUCE SUGAR:** New studies show that too much glucose, and especially fructose, over time starves the brain of energy, leading to both memory loss and brain shrinkage.

- **ANTIOXIDANTS:** The brain is exquisitely in need of antioxidants. If you have a higher intake of antioxidants, you can more or less halve your risk of Alzheimer's.

NEW BOOK FROM
PATRICK HOLFORD,
author + director of *The Alzheimer's Prevention Project*

How is your cognitive health?

TEST YOUR COGNITIVE FUNCTION NOW!
It's completely free.

Watch Patrick Holford's three-minute video and then take the simple cognitive function test.

Your cognitive function score

You are aiming for your Dementia Risk Index (DRI) score index to be 0%.

The cognitive test helps determine the things you're doing right, what to improve, and your biggest risk factors for memory loss and dementia.

Researcher and author Patrick Holford makes it very clear that omega-3, phospholipids (phosphatidylserine and phosphatidylcholine), as well as a coenzymated B complex can help prevent Alzheimer's.

Rejuvenate your *life!*

It's easy to forget to take your supplements.
Our convenient packets take away the guesswork.

A true Canadian health *pioneer*

The founder of Alpha Health Products continues to inspire

For over 50 years, **Siegfried Gursche** was a true force of nature in Canada's natural health industry. He wrote health and nutrition books, manufactured herbal remedies and supplements, advocated for consumers' rights to purchase health products, brought flax oil to Canada, and started *Alive* magazine to educate the public about natural health products. Through his work, millions of people have been influenced to prioritize health prevention.

Siegfried's last passion project was Alpha Health Products. At the time, the public was largely unaware of the health benefits of coconut oil. Not only did he embark on a mission

to educate people about the value of the oil, but he also began a mission to teach them about the value of Fair Trade and getting products ethically sourced – a concept that was quite new at the time.

Today, Alpha preserves Siegfried's legacy by continuing to provide high-quality, sustainable, Fair Trade **“good fats, from good sources.”**

Why do Alpha Flaxseed and MCT oils come in tins? Some oils are very sensitive to sunlight, which can cause oxidative damage. Our tins not only block out light – they're also aluminum-free, BPA-free, and easy to pour from.

Organic MCT Oil

Smoothest, highest-quality, 100% Organic MCT from 100% coconut oil

TOTAL BODY COLLAGEN

The power to revitalize, restore, and protect our total body from the *inside out*.

“When it comes to feeling good and looking good, I am going to share my secret weapon... it is called Total Body Collagen. I take it with a vitamin C supplement in the morning for my hair, skin, nails, and bones, and it couldn't be easier. With Total Body Collagen, my hair is thicker and healthier and I lose less hair in the shower

and in my brush. Fine lines and wrinkles on my face are getting better as I age and my skin looks and feels more hydrated. My nails are stronger with fewer ridges and grow much faster. As an added bonus, Total Body Collagen supports my bone matrix for healthy teeth and bone density.” – **Julie Reil, MD and Beauty Expert**

KOOPE

Koope's European skin care comes to Canada

Happy and healthy skin with super-clean cleansers and moisturizers

Your skin comes under daily assault from many pollutants and toxins. It's time for some self-care. Koope makes skin care effective while being simple and easy, so you can do more with less!

Founded on simplicity

In her 30s, esthetician Nadia Badowski suffered a severe reaction to a luxury skincare brand. She was treated for chronic urticaria (hives) on her face for nearly a year, then set out on a mission to create a skincare brand that was effective, easy to understand, and doesn't include common sensitizers (allergens) and ingredients that may be toxic for your skin and health. She created Koope from the belief that skin care shouldn't be complicated to be effective.

As a child trafficking survivor, Nadia is passionate about and champions the cause of individuals affected by sex trafficking. In addition to raising awareness, Koope donates to select charities that help rescue and support survivors.

"I see no reason to create products that have anything but good-for-you ingredients and no common sensitizers. You don't need a million products to have happy and healthy skin, I promise."

– Nadia Badowski, founder

What is skinimalism?

Skinimalism is simplified skin care. It's a minimalist approach that uses less products to achieve more naturally healthy skin. It's also easy to understand for any level of skin care knowledge. All your skin needs are a cleanser and a moisturizer.

None of the nasty stuff

Europe bans more than 1,500 toxic ingredients that are not banned in the USA or Canada. Koope products are formulated in Europe and follow this golden standard of "clean."

- **Sensitive-skin-friendly:** Koope excludes 36 common sensitizers and is fragrance-free
- **PETA-approved vegan and cruelty-free**
- **Cause-driven:** For every product sold a donation is made to anti-sex-trafficking initiatives

MILK CLEANSER

For a creamy, nourishing cleanse

- Ultra-rich texture
- Smooth and creamy
- Softens and nourishes

Milk Cleanser is ideal for all skin types, but especially for individuals with dry, dehydrated, damaged, or mature skin.

29⁹⁷
50 mL

LIGHTWEIGHT MOISTURIZER

Best for all skin types and oily, acneic skin

For light, sheer hydration

- Sheer, long-lasting hydration
- Helps protect the skin's barrier
- Reduces shine and sensitivity

29⁹⁷
50 mL

MIDDLEWEIGHT MOISTURIZER

Best for all skin types

Balanced, protective all-day hydration

- Long-lasting, balanced hydration
- Environmental protection
- Helps with signs of an unbalanced microbiome

29⁹⁷
50 mL

HEAVYWEIGHT MOISTURIZER

Best for dry, very dry, damaged, or mature skin

Intense hydration without feeling heavy

- Deep hydration that lasts all day and night
- Strengthens the skin's barrier and fights free radicals
- Helps boost elastin and hyaluronic acid production

24⁹⁷
150 mL

GEL CLEANSER

For a deep but gentle cleanse

- Lightweight deep cleansing
- Soothes and softens
- Gentle and non-sensitizing

Gel Cleanser is ideal for all skin types, but especially for individuals with oily or acneic skin, or for removing makeup.

IBS
AFFECTS

1 in 5 people

Reliefibre stops gut discomfort and IBS symptoms

FODMAPs in other popular fibres such as inulin, bran, and wheat can irritate your gut and are bad for irritable bowel syndrome (IBS).

Reliefibre is gentle on your stomach. It's a proven prebiotic fibre that helps relieve symptoms associated with IBS, including bloating, gas, diarrhea, and constipation. It mixes easily in hot or cold liquids, and doesn't result in the thick, goopy consistency of acacia fibre or other products on the market.

- Monash University Low FODMAP Certified™
- 100% organic, non-GMO, gluten-free
- Dissolves rapidly in liquid and doesn't thicken
- Available in Tropical Flavour or Unflavoured

IBS Relief Biotic: This multi-strain formula features 7 billion live probiotic cultures of probiotics shown to relieve symptoms of IBS, and helps restore intestinal flora.

Reliefibre dissolves rapidly in water and doesn't thicken.

WOW GET THE ULTIMATE ENERGY & PERFORMANCE

KATE RHÉAUME, ND

“It’s been a tough couple of years for everyone, but we can’t stop living – it’s time to restart living! Don’t let stress and hormonal imbalances wear you down and interfere with your well-being or intimate relationships.

Desire is complex, but we can reclaim our energy, vitality, and spark. Here’s a primer to happy hormones in these easy steps:

Balance estrogen

At any age, for men or women, an imbalance between helpful and harmful forms of estrogen can make us lose that loving feeling. Too many of the wrong

types of estrogen can squelch engine-revving testosterone, leaving us with no drive. Reduce estrogen dominance with ingredients like milk thistle, indole-3-carbinol, and green tea extract.

Nourish the adrenals

Nothing kills the mood faster than being exhausted. Burnout robs us of the excitement provided by the neurotransmitter dopamine, draining pleasure from any activity, even the simple act of touching.

Adaptogens like Siberian ginseng, ashwagandha, and rhodiola improve mental and physical performance after periods of exertion, restoring our joie de vivre.”

PERFORMANCE

Take advantage of plant-based medicines that support sexual health

Herbal helpers include Malaysian ginseng, a.k.a. tongkat ali (*Eurycoma longifolia*), known for its ability to boost testosterone, and damiana (*Turnera diffusa*), a legendary aphrodisiac. Niacin (vitamin B3) improves circulation, enhancing blood flow to tissues.

MALE ENERGY

This formula protects testosterone from conversion to estrogen, restores hormone balance, and reduces symptoms of declining testosterone. This formula rejuvenates energy and vitality in men over age 35.

50⁹⁷
150 vcaps

27⁴⁷
60 vcaps

GAETANO MORELLO, ND

“In my 30 years of clinical practice, I have rarely had a day when a male patient hasn’t asked me about maintaining youthful vitality. After the age of 35, men often experience a decline in testosterone levels and an increase in estrogen production.

Although lower testosterone is often dismissed as part of the normal aging process, this decline can affect energy, performance, muscle mass and fat distribution, hair growth, and even emotional and cognitive well-being. Ensuring a good intake of essential nutrients needed for testosterone production can help support male reproductive health, energy metabolism, and hormone health in men, whatever their age.”

TESTOSTERONE BOOST

This formula features a full-spectrum extract of ashwagandha to provide significant improvement in testosterone. It also lowers stress levels, while supporting energy and performance.

“Meal replacements offer a natural, effective, and affordable solution that supports overall health and well-being.”
— Julia Solnier, PhD

NEW WEIGHT LOSS STUDY

An observational study comparing the effects of whey and vegan meal replacements containing PolyGlycopleX[®] over 12-weeks in healthy adults

Julia Solnier
Clinical Research Unit, ISURA, Burnaby, Canada
Roland Gahler
R&D, Factors Group of Nutritional Companies, Burnaby, Canada, and
Simon Wood
Faculty of Land and Food Systems, UBC, Vancouver, Canada

Background/Objective: Protein based meal replacements (MR) with various soluble fibre are available to support weight loss. This study aims to compare the effects of new whey and vegan MR containing PolyGlycopleX (PGX) on weight loss over 12 weeks, along with a calorie restricted diet. Methods: Sixty-eight healthy adults of both sexes (30 men, 38 women) were recruited. They were randomized to either a whey MR (W-MR) or a PGX MR (PGX-MR) group. Both groups followed a 12-week program. Results: The PGX-MR group showed significantly greater weight loss (12.5 kg) compared to the W-MR group (8.5 kg) at 12 weeks. Conclusion: PGX-MR is a more effective weight loss strategy compared to W-MR.

“If it worked for me, I am certain it will work for you! My blood sugar is now normal, my blood pressure is excellent, and I feel great! I simply mixed a meal replacement in a glass of water with my fork. It was so quick and easy! I dropped 25 lb.” – B.G.

“I thought it would be hard, but it was real easy. I’ve been doing the shakes for about 10 weeks, during which time I had a vacation, a family event, and even enjoyed a few wines on the patio in the summer. My blood sugar is now normal. After 10 weeks I am down 24 lb with 2 weeks left on the 12-week program.” – C.G.

“Easy 17 lb lost in 3 months! With RealEasy shakes and minimal exercise, I feel lighter and more energized and my belly fat is gone. I am now using RealEasy Meal Replacements as part of my daily meal regimen.” – R.R.
